

Announcement

11/30/10

Final grades

- The final grading for this course should be done by a week from this coming Thursday, your final exam day. It will be 12/9/10.
- As mentioned in the beginning of the course, the final grades for this course will be curved, based on the final class average. It will be calculated by adding all grade points up (midterm, final, homework assignments) and divided by the total number of students who have finished the course. The assignments of the final letter grades will be a multi-pass process, as explained in class before.
- For those who would like to know their overall performance in the class, please send me email with subject *CNT 4104 Final Grade* no sooner than 12/9/10. You may leave the email body part empty unless you have some questions to ask. I will email you back all scores you have earned in this course.
